

Sunil Shastry

Software Engineer | Toronto, ON | Authorized to work in Canada (PGWP)

(647) 765-8238 · contact@sunilshastry.com · linkedin.com/in/sunilshastry · github.com/sunilshastry · sunilshastry.com

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML, CSS

Frontend: React.js, Next.js, Vue.js, Tailwind CSS, TanStack Query, Zod, Vite, shadcn/ui

Backend/APIs: Node.js, Express.js, Spring Boot, Hibernate, REST APIs, GraphQL, Drizzle ORM, Prisma ORM, API Design

Databases/Messaging: PostgreSQL, MongoDB, MySQL, Redis, PostGIS, RabbitMQ

Cloud, DevOps & Testing: AWS (EC2, S3, CloudFront), Docker, GitHub Actions, Git, CI/CD, Jest, React Testing Library, Supertest, Playwright, k6

Work Experience

KinMeet

Sep 2026 – Present

Full Stack Developer Intern

Toronto, ON

- Developed full-stack features using TypeScript, React/React Native, Node.js, Express, and MongoDB across web and mobile applications.
- Enabled profile access from the MyKins interface by making profile names, images, and cards interactive while preserving existing messaging and menu actions.
- Resolved responsive layout and scrolling issues on the Discover page, ensuring profile cards and Pass/Meet actions remain accessible across screen sizes and browser zoom levels.

Qutrix

Nov 2021 – Jan 2022

Software Developer Intern

Bangalore, India

- Developed and shipped reusable React.js UI components with Sass, including calendars, input systems, scheduling interfaces, and responsive layouts for desktop and mobile.
- Strengthened registration and login flows through client-side formatting and validation, backend validation, and API updates for secure user data handling.
- Modernized the React codebase through component refactoring, code splitting, lazy loading, and SEO improvements while collaborating with developers and QA through Git, GitLab, and CI/CD workflows.

Freelance

May 2021 – Oct 2021

Software Developer

Bangalore, India

- Translated client requirements into Adobe XD wireframes and prototypes, iterating on designs through direct client feedback before implementation.
- Built and deployed a responsive website using HTML, Sass, and JavaScript, iterating through client-requested changes and optimizing performance and SEO with Netlify and Lighthouse.

Projects

Itihaas | [Website](#) | [GitHub](#)

Sep 2025 – Present

React, TypeScript, Node.js/Express, GraphQL, MongoDB, Redis, Docker, AWS, DigitalOcean

- Engineered a full-stack historical data platform with a React/TypeScript frontend and Node.js/Express GraphQL API backed by MongoDB, implementing API-key authentication, email verification, and rate limiting.
- Designed a community contribution and moderation workflow with schema validation and Redis caching, supported by automated testing, GitHub Actions CI/CD, Docker, and AWS/DigitalOcean deployment.

DinnerDibs | [GitHub](#)

Mar 2026 – Present

Next.js, TypeScript, Spring Boot, PostgreSQL, PostGIS, Redis, RabbitMQ, Docker, AWS, Hibernate

- Built a full-stack peer-to-peer marketplace with a Next.js/TypeScript frontend and Spring Boot REST API, supporting role-based users, geolocation discovery with PostGIS, dynamic listings, and real-time messaging.
- Designed PostgreSQL persistence with Hibernate, Redis caching, and RabbitMQ asynchronous messaging; containerized services with Docker and automated testing and AWS deployment through GitHub Actions CI/CD.

Education

University of Saskatchewan

June 2026 (Graduated)

Bachelor of Science in Computer Science

Saskatoon, SK
